

Serious revolutionary chemical free cleaning system with thousands of uses by machine and hand!

The iVo SupaFoam and SupaFoam Plus pads are renowned for extremely fast cleaning on almost any surface.

Chemical Free. As part of the Naturally iVo range, you do not need chemicals – use just water for the fastest cleaning you have ever experienced!

Available for any size rotary or orbital machine, as well as hand pads for detail cleaning.

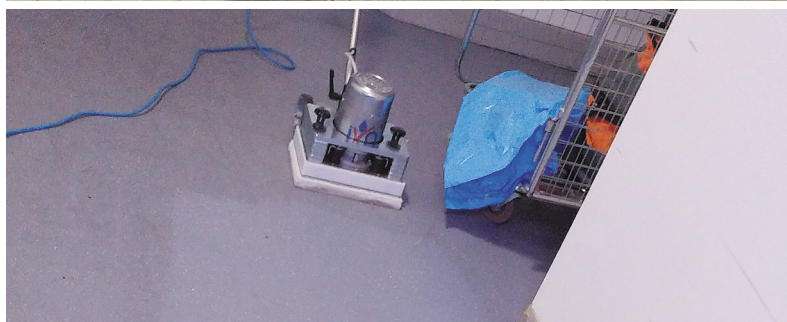

SupaFoam Plus pads give a much greater pad life, excellent for maintenance cleaning on a regular basis, while the standard version gives a super fast and deep clean.

Solve these problems

-  Dirty floors and scuff marks.
-  Stubborn stains.
-  Unsightly rust spots and marks.
-  Pen and pencil marks.
-  Drink stains.

Also

-  Quick and impressive stainless steel cleaning.
-  Remove finger marks and hand prints.
-  Restore to original finish.

Floor cleaning

Maybe you've tried many other pads, now you need to try the fastest and best!

Astounding results on almost any hard surface, SupaFoam is a real problem solver for those difficult floors.

Scrubber dryers

Carry out impressive deep cleans with your existing on site scrubber dryer.

We manufacture all sizes of SupaFoam and SupaFoam Plus pads for every machine.

Orbital machines

SupaFoam is really effective when used with orbital technology.

Definitely the fastest cleaning match available.

It really is worth requesting a demo to see what your missing!

Hand detail cleaning

The SupaFoam detail hand pads are massively popular for cleaning thousands of detail areas.

SupaFoam makes removing stubborn marks and stains and restoring surfaces from years of dirt and grime easy.
